Professional Summary

Frontend developer and UI/UX designer with 5.8 years of experience building modern web applications and scalable user interfaces. Experienced in translating Figma designs into production-ready applications using React, Next.js, Angular, and Svelte. Skilled in frontend architecture, responsive design, UI optimization, cross-browser compatibility, and modern animation frameworks. Comfortable working across design, development, client communication, and leading small teams while contributing to SaaS products and enterprise platforms.

Work Experience

UI/UX Designer & Frontend Developer (Lead) — SentientGeeks, Kolkata

Dec 2020 – Present

Leading a UI/UX team and collaborating closely with clients and developers to deliver scalable web platforms. Responsible for frontend architecture, design implementation, responsive UI development, and ensuring consistency between design systems and production applications.

ClassPoint – https://www.classpoint.io
Worked on ClassPoint 2.0 building responsive React interfaces and translating Figma designs into reusable UI components across the web platform and PowerPoint extension.

GobyHomes – https://gobyhomes.com
Developed the frontend architecture using React and Next.js. Implemented modern UI components, smooth page transitions, and animations using Tailwind CSS, Framer Motion, and Lenis.

QuantumSoar – https://www.quantumsoar.com
Implemented UI and frontend features using Svelte.js and Tailwind CSS while maintaining reusable component structures and responsive layouts.

RainDrop Media Consultancy – https://raindropmediaconsultancy.com
Developed the website frontend using Next.js, Tailwind CSS, and SCSS while building interactive animations using Three.js.

ONUFitness – https://dev.onufitness.com
Built the application interface using Angular, Tailwind CSS, and PrimeNG including dashboard and post-login user flows.

Noir Automotive – https://noir-automotive.com/
Developed and maintained a CMS-driven web platform using Next.js and Strapi CMS with responsive UI implementation and optimized frontend performance.

- Student Of the Batch - 2019 - Ejobindia
- Precious Gem Award - 2024 - SentientGeeks
- The Super Geeks Award - 2023 - SentientGeeks

Personal Project

CodeQuest | Built with AI assistance
https://code-quest-five-wheat.vercel.app

Built a coding-learning platform with Next.js, TypeScript, Tailwind CSS, and Prisma; deployed on Vercel. Includes 300 exercises across JavaScript, React, and C#, a Monaco editor with autosaved workspaces, sandboxed JavaScript assessments, and Sandpack React previews. Added guest access, account sign-in, saved submissions, XP, streaks, and achievements.
